DIA SPECIAL SYMPOSIUM

How Can We Deliver Innovative Products to Patients Expeditiously?
- The Role of Regulatory Authorities, The Role of Industry -

Commemorating PMDA's 10th Anniversary, the PMDA Forum will be held on February 8, 2014 and taking this opportunity with strong support by PMDA, DIA Japan will have a DIA Special Symposium in Tokyo on the following day, February 9.

Inviting oversea speakers who will attend the PMDA Forum as well as Japanese speakers from PMDA and the pharmaceutical industry, this symposium is planned to discuss from a broad perspective what we should do to expedite the delivery of new drugs to patients worldwide.

We hope the symposium will provide an opportunity for open discussions among the invited speakers and participants on topics such as global policies and the environment for innovative drug development from political, regulatory, social, scientific and technological perspectives, with the aim of contributing to future global health.

I look forward to your participation in this special program.

Sincerely yours,

Ko Sekiguchi
Director
DIA Japan
