ABOUT THE CONFERENCE

DIA is proud to present the Pharmacovigilance Conference 2017. With the continuously growing success of the annual DIA QPPV Forum, DIA launched the Pharmacovigilance Conference to address the questions of practical application of pharmacovigilance.

1. Benefit-risk assessment - What and how to do in practice?
2. What are the key pharmacovigilance inspection trends, plus options for improving organisation and processes - including the role of the EU QPPV and the Pharmacovigilance System Master File (PSMF)?
3. What progress and insights have been made within new EU project WEB-RADR on pharmacovigilance and social media?
4. What are the current regulatory and practical challenges of the Risk Management Plan and can potential improvements be identified?

The conference format is uniquely designed to stimulate dialogue and generate solutions through a series of interactive sessions and workshops conducted in an informal setting allowing for in-depth discussion in smaller groups.

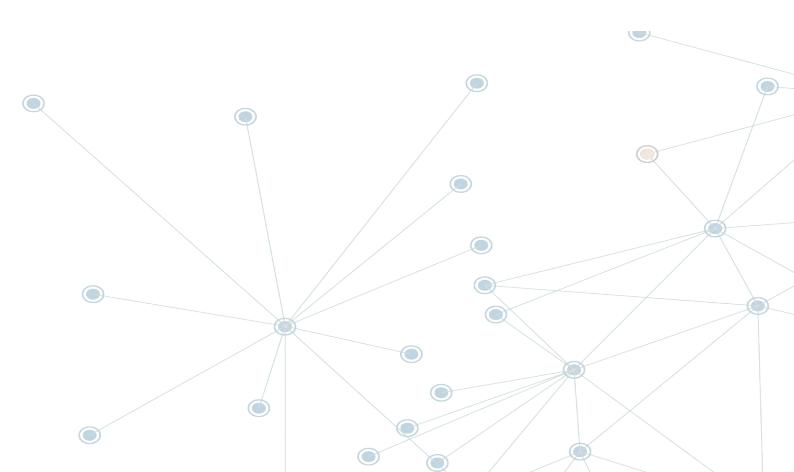

WHY EXHIBIT?

As the Pharmacovigilance Conference is specifically focused around practical skills and application, this is the ideal location to demonstrate the solutions your company provides. Exhibition Tables put you and your products directly in the middle of conversations with decision makers who are or may become your customers. Exhibition space is limited.

WHO WILL YOU MEET?

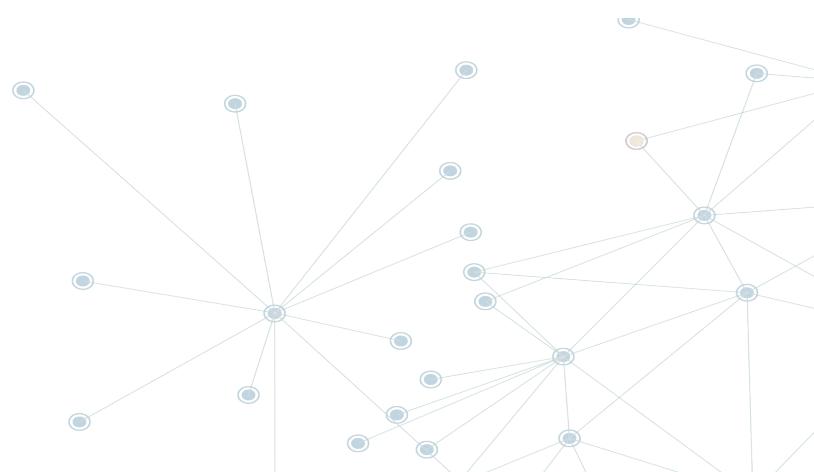

Experienced professionals who are seeking to improve practical skills in key areas in pharmacovigilance, including:

- Signal management
- Pharmacoepidemiology
- Risk Management Plans
- Benefit-risk assessment
- Quality assurance

ROLL-UP BANNER ARTWORK GUIDE

PROOFING

We assume that the files you send us have been proofed by you and are ready for printing. This means you have checked the document for all spelling and grammatical errors, colour issues, layout and design BEFORE sending us your artwork. With this in mind you will not need to receive any further proofs from us. Although we will do our best to ensure that the files you send us are set up correctly, if you follow the guidance you should not have any issues.

FILE TYPES

We require all artwork to be supplied as high resolution PDF files at the correct size for the banner you are buying.

PDF FILES

File type - files should be supplied as high resolution (high quality) 300dpi PDFs.

Images - all images used during artwork preparation should be 300dpi at the Finished Print Size to ensure good quality print.

Fonts - all fonts should be embedded (select embed fonts in distiller options) or converted to curves.

Colour palette - please supply as a CMYK PDF, not RGB. It is important to ensure that all images used are also converted to CMYK. Using RGB PDFs can cause incorrect colours being printed or faults with RGB images.

Bleed - PDFs need to be supplied with 3mm bleed and trim marks. With roller banners it is important to take into account the area that will stay in the stand at the bottom of the panel. This area should also be treated as bleed.

Spot colours - all spot colours need to be converted to CMYK before creating the PDF. If the PDF is set up with spot colours these will be converted before printing and may cause incorrect colour reproduction.

ROLLER BANNERS

The artwork for your roller banners should be set up to the appropriate chosen width and height. The bottom 100mm of the banner material stays within the Roller Banner mechanism at the bottom of the banner and won't be seen. Please bear this in mind when setting up your artwork as it must be set up to the correct size. The print ready PDF must be at least 300dpi with a 3mm bleed if appropriate. It's fine to set the artwork up at 1/2 or 1/4 size as long as the dpi remains 300 at full size.

PREMIUM ROLLER BANNER STAND

The visible panel is available in an 850mm width and is 2,150mm high.

Artwork size should be 850mm x 2,250mm high (treating the bottom 100mm as bleed)

BOOKING AGREEMENT FOR ADVERTISING OPPORTUNITY

Pharmacovigilance Conference

10-11 May 2017 | Chelsea Harbour Hotel, London, UK

CONTACT INFORMATION

Company Name	
Contact Person	
Billing Address
