

## Call for Professional Posters

*Deadline to submit: March 2, 2017*

The Professional Poster Program is an opportunity for you to present your research to a diverse group of scientific professionals who are actively involved in the discovery, development, and life cycle management of pharmaceuticals, biotechnology, medical devices, and health care related products.

### TOP 5 REASONS TO PRESENT YOUR POSTER AT DIA 2017:

1. Posters allow you to get feedback on ongoing research. Whether your work is in its early stages or completed, you will benefit from discussions with other researchers in the same field.
2. Network with attendees and have an impartial discussion of your work with people from around the globe, across the drug development continuum.
3. Posters are a great way to disseminate your work, especially if it falls within a narrow field of specialization.
4. If your field of research is not featured prominently in our program, a poster is a great way to bring your content to a wide, interdisciplinary audience.
5. Gain the skills and confidence to present your work in a dynamic fashion to an audience of your peers.
