# Clinical Trial Disclosure and Data Transparency Conference

SEPTEMBER 14-15 | HILTON WASHINGTON DC/ROCKVILLE HOTEL  
AND EXECUTIVE MEETING CENTER | ROCKVILLE, MD

## Abstract Submission Overview

Clinical trial sponsors and academia are facing a multitude of new registration requirements in the US and the EU. With evolving requirements come new challenges, creating additional opportunities for knowledge-sharing and necessitating more interaction with peers. The *Clinical Trial Disclosure and Data Transparency Conference* Program Committee welcomes abstracts related to implementation of the new clinical trial regulations in the US and EU, anonymizing data and data sharing for presentation consideration. Seize this opportunity to engage and share insights with your fellow attendees by submitting a presentation proposal (see below for additional details).

## Required Documentation for All Abstracts

- **Participant Disclosure Information:** All abstract authors must disclose any relevant financial relationships with any commercial interest associated with this activity that exist or have existed within the past 12 months, as well as any discussion of unlabeled or unapproved drugs or devices. If you are proposing an abstract on behalf of the author, as the submitter you will not be asked to disclose. However, should the abstract be accepted, the author will be informed that he or she must complete and submit a Participant Disclosure in order to participate in the program.
- All submitters and authors must agree to the DIA Speaker Authorization for Use of Presentation Materials in order for the abstract to be a part of the Program.
