About the DIA 2019 Global Annual Meeting

DIA's Global Annual Meeting is the largest, longest-running event in the life sciences industry designed to foster the international exchange of actionable insights to improve health globally through the advancement of lifesaving medicines and technologies. The DIA 2019 Global Annual Meeting (DIA 2019) will bring together industry, regulatory, academia, and patients in one venue, hosting thousands of professionals in the pharmaceutical, biotechnology, and medical device communities from more than 50 countries around the globe. DIA 2019 boasts more than 450 exhibiting companies, over 13+ tracks, and more than 250 sessions.

DIA 2019 provides you with a rare opportunity to build on what you already know in the development of new therapies and accelerate efforts to enhance health and well-being. Where else can you meet with people from around the world, share knowledge, experience cross-functional content with real-world application from top speakers in the industry, and network with peers to build new relationships across multiple disciplines?

Our Track Chairs have highlighted priority topics within their educational tracks to provide direction on content they would like to receive via the Call for Abstracts. You may submit abstracts addressing priority topics and/or topics relevant to the DIA 2019 track descriptions. Both priority topics and track-specific topics will be reviewed and considered by the Annual Meeting Program Committee (AMPC).
