DIAglobal.org

- How do countries across the globe collaborate effectively to deliver
- innovative pharmaceutical products, medical devices, and regenerative
- medical products to patients, in the fastest, most efficient way possible?
- With healthcare product development becoming increasingly global, the
- time has come to deepen the discussion on how to leverage the individual
- strengths of countries, promote better collaboration, and strengthen global
- partnerships, to build the ideal system for creating medicines, medical
- devices, and regenerative medical products.
- Further, innovative technologies such as artificial intelligence, big data/
- genomics, and cell/gene therapies are poised to transform healthcare
- product development across the globe – join us as at the DIA Japan Annual
- Meeting 2018, to discuss these topics and the future of healthcare.
- We look forward to welcoming you at Tokyo Big Sight from November 11-
- 13, 2018 for stimulating discussions around promoting better collaboration
- to drive global health and innovation in this era of medical and scientific
- transformation.
- We hope to see you there!

Endorsement by MHLW, PMDA, JPMA, PhRMA, EFPIA, PDA and ISPE is pending.
