

Health and Well-being

The COVID-19 pandemic is constantly changing, but DIA's commitment to the health and safety of our constituents remains consistent. Because of DIA's unwavering commitment to protecting and preserving public health we have made the decision that all participants at in-person DIA Meetings, Workshops, Forums and Conferences, whether a presenter, attendee, exhibitor, staff, guest, or vendor, **are required to be fully vaccinated.**

This decision was reached by examining public health and safety guidance, meeting spaces, our own event requirements, and the fact that conditions continue to change. It is our top priority to create the safest possible environment, and we will do this by proceeding with the current best practices and information available to us.

For any participant who is unable to be vaccinated due to disability or medical condition, or in connection with a sincerely held religious belief or practice please reach out to NAEvents@DIAglobal.org to see if accommodation can be made.

We are continuing to review and evaluate the outlook for in-person events and will provide updates as they become available. As we get closer to our events, we will post more information about what you can expect onsite.

Upon completion of your registration, please upload your vaccination record to the DIA Crowdpass Health Screening Form as required to join the conference to ensure a safe and speedy process at your upcoming meeting

Mask Requirement

We will notify attendees of the Mask Requirement in effect for each in-person event in the "Know Before You Go" email that is sent approximately one week prior to a meeting. Additionally, we will post an update on this meeting's website to communicate any mask requirements.
