Review Changes Made in Version 3.0 and Discuss Their Implications for Health Care Systems and Pharmaceutical and Biotech Manufacturers.

The Academy of Managed Care Pharmacy’s (AMCP) Format for Formulary Submissions has become a standard for the development and provision of evidence-based clinical and economic dossier for health care decision makers upon an unsolicited request. Version 3.0 is part of an ongoing effort to issue contemporary evidentiary standards and to address user comments and concerns. Numerous comments were collected from managed health care systems, PBMs and the pharmaceutical industry. These comments were incorporated into the guidelines and Version 3.0 was released in October 2009.

FEATURED TOPICS

• History of the AMCP format and revision process
• Summary of the revisions
• Updated guidance on product dossier content development for manufacturers
• Specific clinical and economic evidentiary requirements by health plans and other payers
• Implications of the AMCP dossier on the unsolicited request process
