DIA/MEB Excellence in Pharmacovigilance: Good Pharmacovigilance Practices (GVP) Modules I to XVI

14-17 November 2022
Amsterdam, The Netherlands*

OVERVIEW

Organized and delivered in collaboration with the Dutch Medicines Evaluation Board (MEB), this face-to-face training course covers the major pharmacovigilance processes as outlined in GVP I to XVI. It is designed to provide a strong foundation in all key aspects of European Post-Marketing Safety regulatory requirements.

Furthermore, it includes highlights and updates on the pharmacovigilance legislation as well as the latest news on the ICH activities in pharmacovigilance.

This training course will take place in Amsterdam, allowing live interaction and real-time Q&A with the large panel of renowned experts onsite. We have also decided to make this course available for virtual participation, with some limitation regarding interaction with fellow participants and faculty members. You can register for your preferred format immediately and without concern: DIA will monitor the situation and keep all registrants informed on a regular basis.

LEARNING OBJECTIVES

Additionally to the key topics as outlined below, the learning objectives also include the ability to:

- Understand basic definitions and methods in Pharmacovigilance
- Describe the expedited and periodic ICSRs reporting requirements in post-marketing
- Understand the process of audits and inspections in pharmacovigilance
- Understand the principles of signal management
- Describe the components of the risk management

KEY TOPICS

- Post-Marketing: GVP Modules VI and VII
- Regulatory Aspects in Pharmacovigilance: GVP Modules I, II, III and IV
- Risk Management: GVP Modules V, VIII, XV and XVI
- Signal Management: GVP Modules IX and X

TARGET AUDIENCE

Professionals with experience in safety related activities of the drug development process and/or those with a need of a holistic overview about all PV related regulatory requirements will benefit most, such as:

- Pharmacovigilance Officers, Managers, Specialists, Experts, or Coordinators
- Regulatory Compliance, Quality or Safety departments Heads, Directors or Managers

Level: /Intermediate

**Please note that in case the epidemiological situation does not allow a face-to-face course, this offering will take place in a virtual setting.*

The room rate is available until 13 October 2022 or until the room block is sold-out, whichever comes first.

Event Safety Code of Conduct

In 2022, DIA events are returning to a face-to-face format. Because we are committed to delivering a safe and secure conference, please be advised that all in-person participants must comply with our Event Safety Code of Conduct, which requires either vaccination, certificate of recovery, or proof of inability to be vaccinated alongside a valid PCR test. Please consult the full Event Safety Code of Conduct for more information.

16 NOV | DAY 3 | RISK MANAGEMENT

Day 3 corresponds to GVP Modules V, VIII, XV and XVI.
In accordance with the GVP Module V on Risk Management System, Risk Management Plans (RMPs) should be submitted by companies to propose activities aiming to identify, characterise or minimise risks associated with medicinal products. Given the potential public health implications and costs of such interventions, RMPs should be based on robust data. Specific examples of data collection and analysis will be presented in this session. Besides, pharmaco-epidemiological studies, which are the fundamentals of "additional" Pharmacovigilance activities, are discussed. This session also presents recent developments regarding risk communication.

18:00 **END OF DAY 3**

17 NOV | DAY 4 | SIGNAL MANAGEMENT

Day 4 covers GVP Modules IX and X.
New safety signals may emerge at any time following product launch and must be evaluated for relative risk, medical importance, and likelihood of occurrence. Signal Management is, therefore, one of the crucial "routine" Pharmacovigilance activities. Approaches to Signal Management using qualitative and quantitative methods will be illustrated in a workshop with examples as well as general considerations on signal management in the EEA.

Group Discount

Register 3 individuals from the same company to the same course and receive complimentary registration for a 4th!

- All 4 individuals must register and prepay at the same time – no exceptions
- DIA will apply the value of the lowest applicable fee to this complimentary registration; it does NOT include fees for optional events or DIA membership
- You may substitute group participants of the same membership status at any time; however, administrative fees may be incurred.
- Group registration is not available online and does not apply to the already discounted fees for industry, government or charitable nonprofit/academia

To take advantage of this offer, please print the registration form for EACH of the four registrants from your company. Include the names of all four group registrants on each of the forms and return them together via email to basel@diaglobal.org.
